

Trailmap

Bikepark Schladming
&
Reiteralm Trails

Trail Safety

First, establish the intermediate level that's right for you at the Bike Area and on the Reiteralm Junior Trails before checking out the other trails in the valley. Follow the few simple biking rules and only ride the trails with the correct safety equipment.

Inspect the course and features. First, do a slow roll-through and prepare yourself for a full day on the mountain.

Ride the trail a few times in a row, familiarizing yourself with the different features and special challenges. Feel the flow.

Free-Ride: Slowly intensify. Safely push your skills, add more speed and take on the bigger features.

the right of way

Bikepark Schladming

Austria's most legendary bike park.

40 km of trail-riding enjoyment for all ability levels is guaranteed at Bikepark Schladming. The trails offer fans of two-wheeling a wide range of opportunities and challenges. There's definitely no shortage of FLOW and AIRTIME on the different lines!

400 Bike Area

The Bike Area below the Planai top station offers beginners and next-generation bikers perfect opportunities to get themselves prepared for the trails inside the Bikepark. If you made up your mind at the last second, don't worry: The on-site rental station makes offers you the chance to enjoy a few rides on the 3 easy courses. The magic carpet will bring you up to the start.

401 Uphill Flow Trail

From the mid-station to the mountain station, the Uphill Flow Trail delivers lots of fun. Leading through remote forests flanked by glorious scenery, this trail is a pleasant ride, both by E-bike as well as a traditional mountain bike.

402 Peak Flowline

The Flowline starts at the top station, dropping gently through beautiful blueberry heaths and larch forests down to the middle station of the Planai cable car. A very easy, intuitive course. The Flowline is a perfect family trail!

403 Pro Downhill

The downhill course at the Planai has long since achieved legendary status. Alternating between full speed and jumps with tricky passages of exposed roots and rocks.

404 Rookie Downhill

The Rookie Downhill starts at the top station and is a great introduction to downhill biking. This trail is characterized by many bends and small jumps.

405 99 Jumpline

If those 99 jumps still aren't enough for you, near the end you can make a detour onto the Monster Jumpline where you will be greeted by some really big booters up to 12 metres high!

406 Monster Jumpline

This moderately difficult trail drops through forests and meadows before meeting up with the Downtown Line. The trail features numerous curves, playful waves and small jumps.

407 Kessler Line

This moderately difficult trail drops through forests and meadows before meeting up with the Downtown Line. The trail features numerous curves, playful waves and small jumps.

408 NEW: Stadium Flowline

From the mid-station, a flowline now drops down to the valley! The first section leads through a series of waves and banked curves to a country road. From there, a completely new course is still under construction, around which you can take a short detour via the road. The last stage is a new trail, taking you back to the Planai stadium.

409 Jack Lumber Trail

This trail bristles with off-camber root passages and Northshore elements. Important: only recommended for real pros who can easily handle drops of more than 1 m.

410 Worldcup Downhill

On this racing course you will be biking in the tracks of downhill legends like Sam Hill. This multiple world champion has named this his favorite trail while Brendan Fairclough and Josh Bryceland also had great fun on the #besttrackever.

411 Downtown Line

The Downtown Line gives experienced bikers an opportunity to hurtle down the finish slope of the Planai and finish in Planai Stadium.

Reiteralm Trails

Through endless terrain.

The Reiteralm Trails are perfect for beginners and families, though enduro bikers won't be disappointed either by the roughly 17 km of flow-filled single-track trails. From blue-rated beginner trails to rooty enduro rides, there is something here for everyone.

66 Route 66

"Route 66", named after the number of the old hiking path, is a forest trail with lots of flow on soft, needle-carpeted ground. After a short passage along a forest lane, you will come to a narrow, newly built stretch of trail with a series of tight berms.

100 Eiskar Trail

The Eiskar Trail begins right next to the Preunegg Jet mountain terminal and is excellent for beginners. There are no obstacles or steps to negotiate and, thanks to lots of flow, you have plenty of opportunities to leave your brakes wide open. After 300 m on a forest lane, your blue-rated ride continues on the Schnepfenwald Trail.

101 Buckelwald Trail

The first section of this shared trail was completely redesigned this year and is perfectly suited for enduro bikers especially. The variety-packed trail with exposed roots aplenty runs through undulating forest, becoming steeper and faster towards the end.

Event TIP

»Afterwork-Ride«
15, 22, 29 July & 5 August 2022

- All Reiteralm Trails and the Preunegg Jet cableway open until 7 PM!
- Special Afterwork Ride ticket
- Bikecenter Reiteralm open

Complete event info: www.reiteralm.at

102 Schnepfenwald Trail

The fist section of the Schnepfenwald Trail is very playfully designed, promising lots of fun for all bikers. It also features numerous waves, which fast bikers will be able to jump over. The second section begins after a short ride along the Reiteralm Road, exciting riders with great variety and wooden elements, dropping down to the Preunegg Jet valley station.

103 Gassl Trail

Once you reach the mountain terminal of the Preunegg Jet, you will be faced with an 1 km-long, challenging climb to the start of the Gassl Trail. When you get there, you will be rewarded with an imposing panoramic view of the Dachstein. Traverses at the foot of craggy cliffs and tight turns are sure to set pulses pounding. With so much adrenaline pumping, if you ever need to catch your breath this panoramic trail also offers a number of very special photo points.

104 Hochalm Trail

The Hochalm Trail captivates riders with its very natural design. Elements such as rock slabs and stones as well as natural curves make this line ideal for beginning trail riders in search of a fresh challenge after those blue-rated stages.

105 Junior Trails

Young fans of mountain biking are playfully prepared for the other Reiteralm Trails on 2 different lines. The park is located close to the Preunegg Jet mountain station, easily reachable from there either on foot or by bike. A rental center offers push bikes, junior bikes as well as pedal cars, along with the necessary protective gear. A magic carpet brings youngsters back to the start in comfort.

106 NEW: Jump Trail

Still under construction at the start of the season, the newly created Jump Trail appeals with its natural and very playful design. The trail features many small jumps and waves, making your every wish for flow and fun come true.

(Included in your bike ticket!)

A bus with a trailer for bikes commutes 4 times daily between Planet Planai and the Preunegg Jet. (for the bus timetable see reverse)

Further information:
www.schladming-dachstein.at/bikebus

01 Reiteralm Tour

↔ 40,3 km ↕ 1.270 m
This tour begins at Planet Planai, leading along the Talbachweg to Untertal and via Obertal to the town center of Rohrmoos. From Rohrmoos, a narrow forestry lane brings you to Preunegg - after a short, flat paved stretch, you will reach the valley station of the Preunegg-Jet. Ambitious uphill bikers will make a left just before the valley station and tackle the remaining 700 vertical meters under their own steam.

04 Planai Tour

↔ 33,25 km ↕ 1.140 m
This tour is a perfect alternative to riding up on the Planai gondola. The idyllic Talbachklamm will bring you to Untertal, followed by a leisurely ride – also on paved mountain roads from time to time – to the Planai midstation. From there, a wide gravel road (6.2 km) will lead you to the Planai mountain terminal. Tip: As of summer 2020, an Uphill Flow Trail designed especially for mountain bikers will begin at the Planai mid-station.

R7 Enns Bike Path

The car-free Enns Bike Path ("Ennsradweg") provides an ideal way to ride from Pichl to Schladming. This flat cycling route (the R7) heads east along the River Enns.

The mountain bike map with separate removable map sheets is there for you, if you are looking for a great way to navigate during your next MTB tour. € 4.–

Levels of difficulty

All routes are indicated in the respective level of difficulty:

- very easy track
- technically easy track
- intermediate track, technically challenging
- difficult track, technically challenging

Full-face helmet required
