Reiteralm Trails Singletrack Haus-Aich

Trail Safety

First, establish the intermediate level that's right for you at the Bike Area and on the Reiteralm Junior Trails before checking out the other trails in the valley. Follow the few simple biking rules and only ride the trails with the correct safety equipment.

Inspect the course and features. First, do a slow rollthrough and prepare yourself for a full day on the mountain.

Ride the trail a few times in a row, familiarizing yourself with the different features and special challenges. Feel the flow.

Slowly intensify. Safely push your skills, add more speed and take on the bigger features.

Adventure for the whole family

The Haus-Aich singletrack is ideal for children and trail beginners. The particularly environmentally friendly construction of the trails and the narrow cycle paths result in varied routes through the forest.
